

## PRESS RELEASE

### **Gradual restoration of power supply in the afflicted areas**

Following previous announcement regarding the restoration of power supply in Eastern Attica, for those areas afflicted by the deadly wildfires, HEDNO would like to announce that today, Friday 27 July 2018, a total of almost 3,700 out of 7,500 consumers have been reconnected to the network.

Also, 34 out of 50 substations have been replaced and are operating properly.

Our Company continues to work hard in this effort to restore all network damages in Mati, Neos Voutzas and Rafina by reinforcing its crews and using all necessary equipment in order to achieve full restoration of the power supply in the afflicted areas.
