

## PRESS RELEASE

### **HEDNO receives the Business Synergies Award**

HEDNO received the Business Synergies award for its cooperation with Intracom Telecom, on the implementation of the innovative project for Telemetry of Low Voltage customers during the 8<sup>th</sup> Connected World Conference.

The award was received jointly by the Director of HEDNO's Network Department Mr. Giorgos Papoutsis and the Vice-President of Intracom Telecom Mr. Anastasios Dimopoulos.

HEDNO has implemented so far, Medium and Low Voltage telemetry systems that manage 34% of the total distributed energy.

HEDNO nowadays is proceeding with the implementation of the pilot project for telemetry and management systems of power supply in residential and small commercial consumers, integrating 200,000 smart metering points nationwide. This pilot project will be extended gradually, so as to replace 7.5 million meters with smart meters in the whole Greek territory.
