

HEDNO ANNOUNCEMENT
referring to the application of the new Ministerial Decisions for PV plants

24.08.2012

HEDNO informs the interested parties that with the Ministerial Decision ΥΑΠΕ/Φ1/2300/οικ16932 ([Greek Government Gazette B' 2317/10.08.2012](#))¹ the following actions are suspended:

- The submission of new requests to the Network Operator for the provision of connection offer for PV plants which are exempted from the obligation of generation permit (up to 1MW capacity).
- The examination of pending requests to the Network Operator for the provision of connection offer for PV plants which are exempted from the obligation of generation permit (up to 1MW capacity).

It is clarified that the suspension for the submission of new requests and the examination of pending requests for PV plants that are exempted from generation permit do not include PV systems of the Special Program in buildings (up to 10KW capacity) for which the whole procedure (submission and examination of requests, provision of connection offers, signature of connection agreements etc) is continued normally².

1 Suspension of the procedure for the provision of permits and connection offers for PV plants due to coverage of goals defined by the Decision Α.Υ./Φ1/οικ19598/01.10.2010 of the Minister of Environment, Energy & Climate Change.

2 Apart from Peloponnisos which is characterized as region with glut network based on the no 699/01.08.2012 Decision of RAE.
