

ANNOUNCEMENT

HEDNO would like to announce that today, Tuesday, 8 September, at about 5:00 am, a damage was caused at the High Voltage - Medium Voltage substation facilities at Paros, which consequently resulted in the failure of electricity supply for the island as well as the interconnected islands of Naxos, Ios, Sikinos, Folegandros, Antiparos, Irakleia, Shoinousa and Koufonisi.

After the immediate action of HEDNO's technical crews, most of the island were re-connected to the network at 6:30 am, while full restoration of the supply was completed just a while ago.

HEDNO's crews worked hard for the quick and efficient restoration and reconnection of electricity supply of the islands.
